

## **Union County Junior Fair Lamb and Goat Animal Identification 2024**

**Ownership Deadline is May 1, 2024  
Submission Deadline is NOON Tuesday, May 7, 2024**

### **Animal ID Process for Market Lambs and Goats for 2024:**

Each 4-H/FFA member is responsible for identifying his or her own market lambs and/or goats using the scrapie tags already present on the animal. Deadline to submit the online registration is Tuesday, May 7th by NOON.

### **How many may I tag in and take to the show?**

Each exhibitor may tag in and bring a limited number of animals to the fair for show. Remember, this is per exhibitor. Both sheep and goat exhibitors may tag in 6 animals and show 4.

### **Family Tag-In Option:**

For families with more than one exhibitor of the same species in the household, Family Identification is an option. Animals may be identified as a family and then matched with a specific exhibitor at weigh-in. Example: John Doe and Jane Doe live in the same house and both show market lambs. Twelve lambs may be identified between the two of them; they can bring 8 animals to the fair. They may decide at weigh-in who will be showing each of the animals they bring to the fair (maximum of 4 each).

### **Prior to Logging on to the Tag-In Site – HAVE READY for EACH lamb or goat:**

**Tag Maximum of 6, Show a Maximum of 4 per Exhibitor**

- Gender
- Identification: **COMPLETE Scrapie Tag Number required**, generally at least 8 digits for OH Scrapie tags. **Example: OH12345678**
- County Born and Raised information, if applicable (Breeder Name, Address, and Phone Number).
- Head Picture: Clearly showing clearly showing tag with numbers able to be read easily.
- Profile Picture: Side view clearly showing coloring, markings, and identifying features.

### **How to Submit Tag-In Information:**

Please see the attached instructions. You can log in to the Fair Entry site here:

<http://unioncountyfairhio.fairentry.com/>

## **How to Indicate Family Sharing when registering livestock:**

- You do not need to complete any additional forms.
- All exhibitors must be listed under the same family account in Fair Entry.
- Each exhibitor must list at least one animal to complete the registration.
- Each animal is listed ONLY one time.
- All animals listed under any individual exhibitor in the same family account will be available for each family member that identified an animal in that species at Fair Entry time.
- Example from above: John would register 6 of the lambs; Jane would register the other 6 lambs. At time of entry, any of the lambs could be designated to be shown by either family member. John and Jill can still change animals at time of weigh in as well.

## **Questions/Assistance:**

If you have any questions or feel that you need assistance, please feel free to contact the Livestock Committee Members for the Sheep or Goat Project.

# Instructions for Animal Identification

## READ THE INSTRUCTIONS BELOW!

Before You Begin Have Ready:

1. Two pictures of each animal - one full profile and one head shot with identifying tag clearly visible and legible. Pictures should be saved as either a PDF or one of these image file types: gif, jpg, png, or tif.
2. Be prepared to enter the complete scrapie tag number already in the animal's ear.
3. Identify whether the animals are being entered as County Born and Raised (CBR).
4. If CBR, have breeders name ready to enter.
5. If animals are being tagged using Family Tag-In Option you **MUST** include all exhibitors under one family account.

Go to <http://unioncountyfairohio.fairentry.com/> to log in to the FairEntry site.

4-H members will log in using the same 4-H online login and password that was used when enrolling in 4-H.

FFA members will log-in through the "Sign In with FairEntry" option. Please use the email and password that you used last year. If you are new, click on "Not in 4-H Online and need to create a FairEntry Exhibitor account."

After logging in, click on the "Register an animal" button under Animal Identification

There are two separate process, depending on if you are in 4-H or FFA

If you have both 4-H and FFA exhibitors in your family, log-in using your 4-H online account. Once in the system you can register the FFA exhibitor under the same account using the instructions for FFA members below.

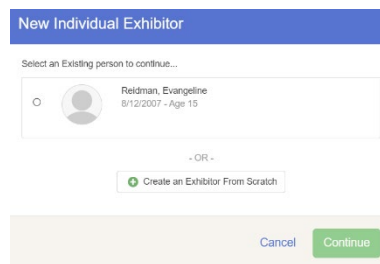

# Instructions for Animal Identification

## For FFA Members

The first step is to register the exhibitor.

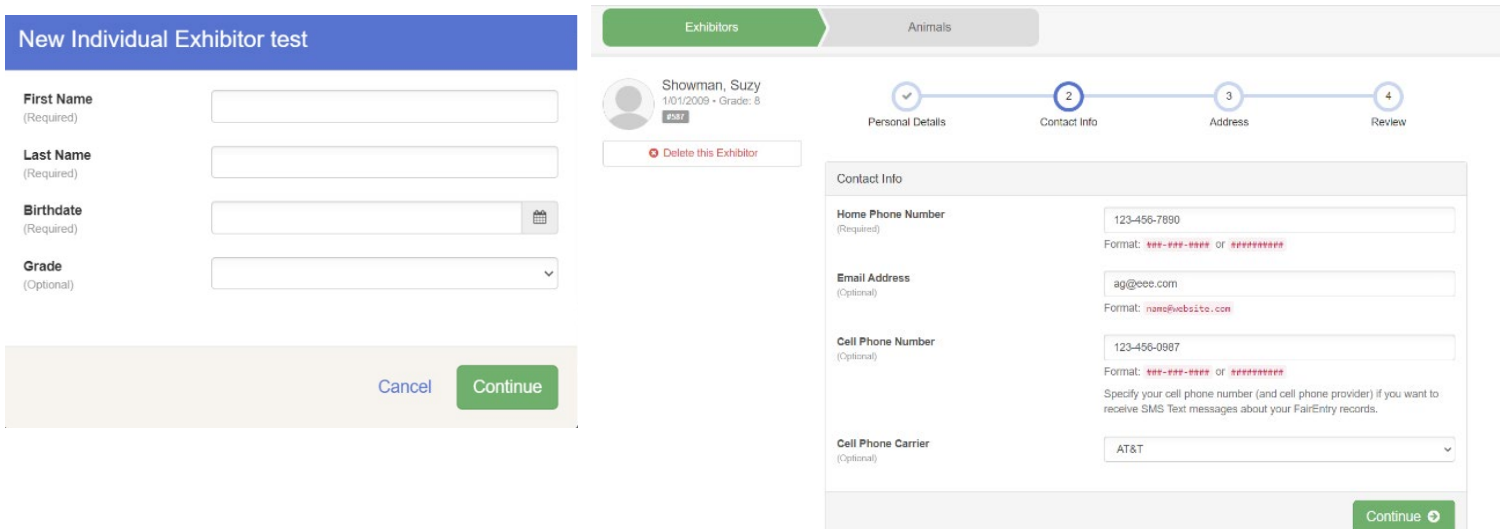

You can select from the existing exhibitors listed or select "Create an Exhibitor from Scratch"

If you create an exhibitor from Scratch, there are 3 screens to complete:

1. First Name, Last Name, Birthdate, Grade
2. Contact Info – Phone is required, email and cell phones are optional. But, the more contact information you give us, the easier it is for us to reach out if there is a problem.
3. Address (required) – This is important. The address listed here is where checks will be sent after the fair.

(These screens should auto fill from the information you entered when registering animals last year. Please confirm the information is correct or make the necessary corrections.)

# Instructions for Animal Identification

Click the Continue button

Upload your animal photos

\*\*Files must be either PDF or an image file (GIF, JPG, PNG, TIFF).

1. Click on “Select a photo” under profile pictures and select a picture from your computer to upload. When done correctly, the uploaded photo will appear on the screen.
2. Click on “Select a photo” under head shot and select a picture from your computer to upload. Head shot photos must include the ear tag in the animal’s ear.
3. When you are done, click finish.

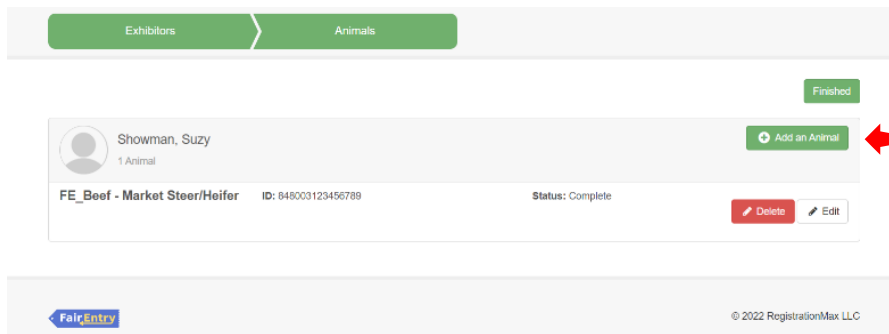

After clicking “Finish,” you will be taken to a list of all exhibitors/animals for this family.

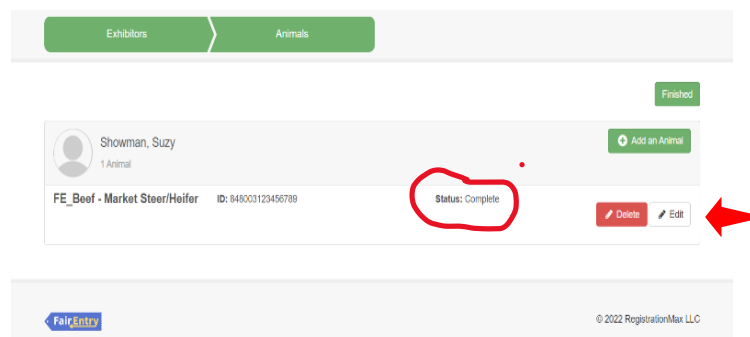

Click on “Add an Animal” if you want to add additional animals to this exhibitor.

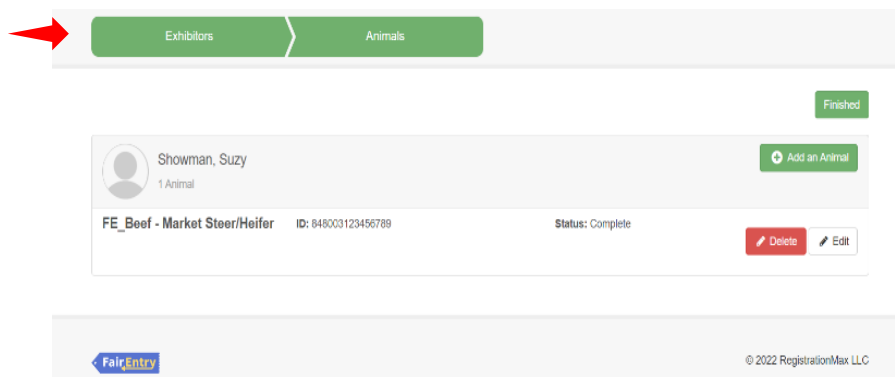

# Instructions for Animal Identification

Check that the status for each animal says “Complete” otherwise you need to “Edit” your entry.

To add a new exhibitor to the family, click on the green “Exhibitors” tab at the top of the screen.

Once you are done entering all exhibitors and animals for your family, click the “Finished” button.
